

Orion Mobility Successfully Holds 21st Annual Global Relocation Conference

Nearly 100 professionals in the tax, payroll, human resources and relocation management fields came to learn, network and discuss Putting ROI Into Focus: Today's Solutions for Corporate HR, Tax, Payroll and Relocation Professionals at the Crowne Plaza Hotel, White Plains, NY from September 22-24, 2008.

Wilton, CT October 10, 2008 -- This year's Global Relocation Conference held by Orion Mobility featured keynote addresses by Margery M. Marshall (President, Vandover) and Phillip Berry (Managing Principal, B-3 LLC) former Vice President at Colgate Palmolive. Also offered were educational sessions on current "hot topics" including: the 2008 Economic Stimulus package, implications of new and emerging technologies in relocation, managing temporary assignments, providing global compensation services for expats and up-to-the minute federal tax trends and developments.

David S. Oltman, CRP, Orion Mobility's President and Co-Founder said: "Since day one our Conference has been geared to educate relocation professionals (or those teams supporting them) on the latest trends and developments to save on program costs, properly apply gross-up policies and maintain compliance. From the feedback and evaluations we have received, we were rated as meeting and exceeding attendee expectations. Since it's still baseball season, I can say it looks like we hit a home run once again with this event! "

"Many of our clients can only make it out of the office once a year, so it's our job to make sure the agenda provides the maximum amount of information in a short time window" says Mary Reilly, VP of Business and Client Development at Orion. "We also met face-to-face with clients on how we can help to improve their program administration by implementing improvements to the services and software we offer. I am so energized by these meetings and appreciate the efforts the attendees made to join us", she continues.

Joy Morrison, Sr. Manager Global Mobility at Purchase, NY- based PepsiCo. Inc, and a frequent conference attendee, commented: "The conference attendance is just the right size -- small enough to network and be able to ask questions while large enough that we benefit from a diverse group of professionals." Another corporate attendee stated, "I will use the Program Handouts all year round ... they are a consistent source of reference for me."

A comprehensive program package, containing the program materials (over 244 pages plus the new 2008/9 Relocation Tax Advisor book) and presentations, is available for \$245 for those who could not

make the event. To purchase a package and for more information on Orion Mobility, its seminars, services and relocation tax services, please visit us on the web at www.orionmobility.com or phone us at 1800 GROSS-UP.
