ORION MOBILITY OPENS WASHINGTON, DC OFFICE TO SERVE GOVERNMENT AGENCIES WITH ITS NEW SOFTWARE PROGRAM relviewsGOV™.

Orion Mobility has announced opening a new client support and business development office located at 1201 Pennsylvania Avenue in Washington, DC, dedicated to serving the needs of government agencies. The company, in partnership with Runzheimer International, has been awarded a GSA contract for relocation software under SIN 653-3.

David S. Oltman, Orion Mobility's Co-Founder and President stated: "To create relviewsGOV™, an industry first, we worked closely with the General Services Administration and their Government-Wide Relocation Advisory Board. With the help of Orion Mobility, the committee developed standards and definitions for tracking and reporting expenses connected with a government paid relocation, as well as made other recommended improvements to government relocation policies."

"After conducting briefings with a number of government agencies, we determined the need for the D.C. office was very high," says John L. Heithaus, Orion's CCO. "We're offering local on-site training, making presentations to clients and prospects and providing a local presence to make sure we are tuned into the needs of the government marketplace."

Orion Mobility's software applications provide complete end-to-end relocation solutions to Federal agencies and Enterprise centers. Whether an agency/center needs to manage relocation policy, provide relocation services, make payments to vendors, track and report costs, or comply with Federal, State, and/or Local taxation and FS1012 travel vouchers, Orion Mobility has the industry exclusive system ready to be put to work today.

About Orion Mobility

Orion Mobility supports every move – nationally, globally and governmentally. Serving the relocation industry since 1987, Orion Mobility offers the best solution for your success. relviewsComplete™, is our suite of relocation software solutions facilitating relocation event process flow management, expense tracking and reporting, tax calculation and gross-up functions.
