FOR IMMEDIATE RELEASE

August 18, 2009

David. S. Oltman, Co-Founder and President of Orion Mobility, announced the creation of its Green Initiative to provide human resource and payroll professionals with smart solutions for the management of their employee relocation programs.

Oltman said that over the past few years, people everywhere have been expressing a desire to make more efficient use of energy and resources. Orion Mobility has committed to helping its clients more efficiently manage their relocation programs and reduce their ecological footprint. Orion Mobility can create client specific ties directly to and from our entire software suite, thereby eliminating the waste of paper, ink, and the most precious resource – time. Orion was also the first to develop the technology so that your employees can submit all expense claims online - from anywhere in the world. The entire process, from receipt collection to direct deposit of reimbursements has been completely automated.

Orion will continue to promote its Green Initiative at our 22nd Annual Global Relocation, Tax, Payroll and Legal Conference in September. To further our commitment to helping our clients realize their green potential, Orion has created a special offer to all of our current and new software users. Any client who attends the conference and software training will not only receive valuable tips on using the system to reduce their ecological footprint, but will also receive a *free* interface from their payroll, AP and online travel and expense management systems. In addition, corporations who commit to using Orion's online employee relocation expense reporting module by the conference date will receive 25 *free* employee view licenses plus *free* employee view training. That's our commitment to you.

About Orion Mobility

Orion Mobility offers relocation software to manage all aspects of the relocation process from U.S. Domestic tax gross-up, Domestic Operations and International Mobility, as well as full service Expense Management processing.

Bright Minds, Better Views since 1987
