Orion Mobility Names New President

WILTON, CT – February 11, 2010

Peter Fonseca, CRP, officially takes the helm as President, announces Orion Mobility, the originator of relocation software and services. Fonseca's appointment is the 8-year culmination of managing daily operations and leading future development for Orion Mobility's full range of products and services.

David S. Oltman, CRP past President, CEO and Founder, has left Orion Mobility to focus on opportunities at Relocation Taxes, LLC, a company he has owned for many years. Fonseca will continue implementing his plans for Orion Mobility, including robust global assignment components and the next tier of relocation software innovations. "Both companies have seen tremendous growth potential within the industry," Fonseca says, referring to the increase demand for relocation tax return services and software solutions.

Fonseca has been responsible for maintaining Orion Mobility's "best in industry" status for the last 8 years. "So of course that will continue," Fonseca says, referring to the next major product upgrade that is well underway. "I have the most experienced development, management, and accounting teams in the industry. No one knows relocation better," with the entire employee base averaging over 9 years with the company and over 14 years within the relocation industry. A 14-year veteran himself, Fonseca has lead the company in the implementation and design of its relocation software and tax gross-up systems that are used today as well as leading Orion Mobility's expense management services.

About Orion Mobility

Orion Mobility was first to provide relocation software applications and tax compliance services, as The Hessel Group, in 1987, and has remained the leader for these 23 years. Providing secure solutions, Orion Mobility fully addresses transferees' relocation, expense management, and tax gross-up requirements for any size company, whether in-house or outsourced. Partnering with Human Resources, Payroll, Accounting, IT, and Government departments, Orion Mobility's *reloviews*[™] software manages relocation processes. Services include *ExpenseManagement*[™] and *Global Assignee Compensation Solutions*[™].
